Industry Leaders

We take care of the world you live in. For the past 25 years, we have been called upon to confront the largest emergencies facing the nation – from the BP oil spill, Anthrax outbreak, to Hurricane Katrina, and the COVID-19 Pandemic. We are a full service remediation company and contractor that specializes in inland, nearshore, and offshore emergency response and hazardous waste remediation

The AMPOL Assurance

UNMATCHED EXPERIENCE

When it comes to spill response AMPOL leads the way. Our vast inventory of equipment and strategically located response bases makes AMPOL the leading contractor in the Gulf South for environmental incident response.

AWARD WINNING SERVICE

AMPOL complies with all OSHA, Coast Guard and DOT regulations that pertain to our scope of operations. We are proud of our impressive safety and environmental history of ZERO OSHA violations.

TRAINED AND CERTIFIED PROFESSIONALS

Our field, management and technical knowledge offers safe, dependable, cost-effective and regulatory compliant solutions for industrial environmental issues.

A large-scale industrial demolition project. Two excavators, one yellow and one orange, are working on a multi-story concrete building that is partially demolished. A large pile of debris and twisted metal is in the foreground. A worker in a blue suit and yellow hard hat is visible near the debris. The background shows a clear blue sky and distant hills.

Industrial Demolition

Proper demolition involves identifying and then managing multiple waste streams destined for either disposal or recycling. AMPOL can plan and manage the process for start to finish.

Services in the Following Areas:

- Pre-Job site assessment and survey to identify hazards from asbestos, lead, NORM, and other forms of stored energy
- Ability to transport and dispose of any hazardous material at a license NORM facility
- Utilities coordination
- Waste characterization
- Project Planning
- Skilled equipment operators
- Waste transportation and disposal
- Waste recycling

Industries Served

- Oil and Gas
- Pipeline
- Refining
- Petrochemical
- Manufacturing
- Commercial
- Industrial
- Residential

SATISFIED CUSTOMERS

"Very professional and efficient crew!
We were pleased with the measures
they took to protect themselves and our
employees. Your crews will allow us to
re-enter our 10,000 square foot building
space with more confidence that we
have taken measures to protect our
workforce."

Colonial Pipeline Company

"A special thanks to the AMPOL team
that did the "heavy lifting"... They
worked, communicated and conducted
themselves as professionals with me
and my staff. I would not hesitate at all
to have them at Grambling State
University in the future."

Grambling State University

"The AMPOL crew arrived on time and
were ready to go to work. They had all
the tools, equipment, PPE, Safety Data
Sheets, that they needed with them
and ready for use."
