

EMERGENCY RESPONSE

When it comes to oil and hazardous material spill response, AMPOL is a recognized industry leader. With one of the largest inventories of spill response recovery equipment for land, inland waterways, and near shore locations AMPOL is capable of simultaneous responses every day.

AMPOL is a United States Coast Guard rated OSRO (Oil Spill Removal Organization) level MM through W3. AMPOL can be counted on for an emergency response force that provides quick mobilization and professional execution.

Our vast inventory of equipment and strategically located response bases make AMPOL the leading contractor in the Gulf South for environmental incident response.

ABATEMENT (ASBESTOS, LEAD, MOLD)

AMPOL is the leading hazardous material abatement specialist for asbestos, lead, mold and mildew in the Gulf Coast Region – onshore and offshore.

As a full-service contractor, AMPOL provides a full spectrum of abatement services including:

- Friable and Non-Friable Asbestos Removal
- Industrial Services & Commercial Services

Regardless of the hazardous elements you need to abate, AMPOL's EPA and DEQ certified and trained crews are available 24/7.

If the asbestos removal project involves insulation, AMPOL has the capability of replacing the insulation.

DISINFECTION/OTHER/DISPOSAL

For the past 25 years, we have been called upon to confront the largest emergencies facing the nation – from the BP oil spill, to the Anthrax outbreak, to Hurricane Katrina. The Coronavirus is no different. We have unmatched staff, equipment and expertise to provide industry-leading disinfecting services. Peace of mind is essential with any COVID-19 related service.

AMPOL's proprietary disinfection methods are environmentally conscious and provide an efficient solution for the assured safety of your facility, employees, and customers.
